Tasks - V07-08

AGJ - HH

July 8, 2023

1 Defining Tasks

Creating CSV file out of Filmactor CSV

1. Delete actors and etc columns from CSV and just keep FilmID and year and call the new CSV file Filmactor2

2. Join our dataset(Filmactor2) and Cinemagoer on FilmID and add following columns to our dataset and call it Filmactor-Opt:

   (a) Cinemagoer - Genre

   (b) Cinemagoer - Cast (First 10 is satisfying)

   (c) Cinemagoer - Director

3. Join initial Filmactor CSV file and the new CSV file Filmactor-opt on name of actors and add actor id to our filmactor-opt CSV
